Matías I. Villalobos Cautivo

Unity Developer | VR & XR Developer

Santiago, Chile | matias.villalobos.dev@gmail.com
github.com/Matixvc | linkedin.com/in/matias-vc-dev
Portfolio: github.com/Matixvc/portafolio-web

PROFESSIONAL SUMMARY

Unity and C# developer focused on virtual reality (VR), extended reality (XR) and interactive 3D experiences. Builds gameplay systems, physics-based prototypes and cross-platform Unity projects. Hands-on VR functional testing on Meta Quest 3, with issue reporting to support validation. Interested in Junior, Trainee and internship opportunities in Unity and XR development.

TECHNICAL SKILLS

Core: Unity 6, C#, Unreal Engine, Python

VR / XR: Meta Quest 3, functional testing, beta testing, issue reporting

Unity: Input System, URP, TextMeshPro, NavMesh, Rigidbody, Raycasting

Programming: OOP, component architecture, events, state machines, debugging

Gameplay: Player controls, enemy AI, modular systems, progression, Object Pooling

Tools: Git, GitHub, Blender; 3D physics and collisions

PROJECTS & ACADEMIC EXPERIENCE

PhysicsVR Prototype | VR physics interaction

Unity 6 · C# · Personal project | In development

- Developing a VR prototype exploring physical interaction and object manipulation in 3D environments.

github.com/Matixvc/PhysicsVR_Prototype

40 Days of Light | Action survival roguelite

Unity 6 · C# · URP 17.6 · Input System · Android / PC

- Built player controls, modular weapons, game-state management and difficulty progression for a 40-day top-down game with enemy waves and bosses.
- Implemented NavMesh enemy AI and Object Pooling for enemies, experience gems and effects; configured graphics for mobile and PC.

github.com/Matixvc/40-DAYS-OF-LIGHT

XR Beta Tester | Confidential university project (NDA)

Meta Quest 3 · Unpaid academic collaboration

- Performed functional checks on a university VR experience directly on Meta Quest 3; reported issues and unexpected behavior to support validation.

EDUCATION

Engineering in Virtual Reality and Digital Game Design

Universidad Bernardo O'Higgins (UBO), Santiago, Chile | 2021 – Present · Expected graduation: 2028

LANGUAGES & AVAILABILITY

Spanish: Native | English: Intermediate · Remote, hybrid or on-site
